

CANADIAN JADE

Jade was formed by nature, deep in the earth's crust under high pressure and temperatures, a process that has taken millions of years to complete. Jade refers to two mineral species, Jadeite (found mainly in Burma) and Nephrite found in British Columbia. Jade is a symbol of serenity and purity.

A protective stone, Jade keeps the wearer from harm and brings harmony. Jade attracts good luck and friendship. It stabilizes the personality and promotes self-sufficiency. Soothes the mind, releasing negative thoughts.
